ANIMAL FEED SCIENCE AND TECHNOLOGY

VOL. 63 NOS. 1–4 CONTENTS 1 DECEMBER 1996

(Abstracted/Indexed in: Biol. Abstr., Curr. Contents A, B & ES, Herb. Abstr., Index Vet., Nutr. Abstr. Rev., Vet. Bull.)

Variation in ruminal degradation and intestinal digestion of animal byproduct proteins
S.A. Howie, S. Calsamiglia and M.D. Stern (St. Paul, MN, USA) 1
The evaluation and enhancement of the nutritive value of yellow-, green- and brown-seeded pea cultivars for unpelleted diets given to broiler chickens
F.A. Igbasan and W. Guenter (Winnipeg, Man., Canada) 9
Effect of a sepiolite product on pellet durability in pig diets differing in particle size and in broiler starter and finisher diets
E. Angulo (Lleida, Spain), J. Brufau and E. Esteve-Garcia (Reus, Spain) 25
The effect of intraruminal infusions of amines and gamma amino butyric acid on rumen fermentation parameters and food intake of steers offered grass silage
L.E.R. Dawson (Hillsborough, UK) and C.S. Mayne (Belfast, UK) 35
Evaluation of a seal by-product meal as a feedstuff for dairy cows
P.H. Robinson (Fredericton, N.B., Canada) 51
In sacco degradation characteristics of organic matter, neutral detergent fibre and crude protein of fresh grass fertilized with different amounts of nitrogen
H. Valk, I.E. Kappers (Lelystad, The Netherlands) and S. Tamminga (Wageningen, The Netherlands) 63
Dried lemon as energetic supplement of diet based on urea-treated barley straw: effects on intake and digestibility in goats
J. Madrid, F. Hernández, M.A. Pulgar and J.M. Cid (Murcia, Spain) 89
A comparison of four methods of estimating the rate and extent of cell wall degradation in grass silages
D. Wilman, G.R. Foulkes (Aberystwyth, UK) and D.I. Givens (Stratford-upon-Avon, UK) . . . 99
The rate and extent of cell-wall degradation in vitro for 40 silages varying in composition and digestibility
D. Wilman, G.R. Foulkes (Aberystwyth, UK) and D.I. Givens (Stratford-upon-Avon, UK) . . . 111
Feeding napier hay as supplement to sheep given poor quality natural pasture hay: effects of level of napier hay supplement and inclusion of urea in the basal diet on intake and digestibility
B. Manyuchi (Mutare, Zimbabwe), F.D. Deb Hovell (Aberdeen, UK), L.R. Ndlovu, J.H. Topps (Harare, Zimbabwe) and A. Tigere (Marondera, Zimbabwe) 123

(continued on page 355)

Contents continued

Growth performance of lambs fed mixed diets containing halophyte ingredients
R.S. Swingle, E.P. Glenn (Tucson, AZ, USA) and V. Squires (Adelaide, S.A., Australia) . . . 137
Effects of a probiotic yeast in lactating ruminants: interaction with dietary nitrogen level
S. Giger-Reverdin, N. Bezault, D. Sauvant (Paris, France) and G. Bertin (Levallois-Perret, France) . . . 149
Effects of the synchronization of the rate of carbohydrates and nitrogen release of the concentrate on rumen fermentation, plasma metabolites and insulin, in the dry pregnant goat
Ph. Schmidely, H. Archimède, P. Bas, A. Rouzeau, S. Munoz and D. Sauvant (Paris, France) . . . 163
A comparative study on amino acid availability of moist heated canola meal for poultry vs. ruminants
M. Undi, S.A. Moshtaghi-Nia, K.M. Wittenberg and J.R. Ingalls (Winnipeg, Man., Canada) . . 179
Effects of gastric pH on the activity of exogenous pentosanase and the effect of pentosanase supplementation of the diet on the performance of growing-finishing pigs
P.A. Thacker and T.C. Baas (Saskatoon, Sask., Canada) . . . 187
Evaluation of praseodymium as a liquid marker in rumen turnover studies
G. Bernal-Santos, P.J. Van Soest, C.J. Sniffen and M.L. Thonney (Ithaca, NY, USA) . . . 201
Nutrional value and antinutritional components of whole and ethanol extracted *Moringa oleifera* leaves
H.P.S. Makkar and K. Becker (Stuttgart, Germany) . . . 211
The catalytic effect of supplementation of protein meals on utilization of rice straw–poultry droppings–rice bran diet in buffaloes
P. Prakash, D.V. Reddy, R. Ramachandra Reddy and N. Krishna (Andhra Pradesh, India) . 229
The effect of stage of harvest on the process of digestion in cattle fed winter oats indoors.II. Nitrogen digestion and microbial protein synthesis
J.C. Elizalde, F.J. Santini (Balcarce, Argentina) and A.M. Pasinato (Hilario Ascasuti, Argentina) . . . 245
Rumen availabilities of nonstructural carbohydrate and protein estimated from in situ incubation of ingredients versus diets
J.M. Aldrich, L.A. Holden, L.D. Muller and G.A. Varga (University Park, PA, USA) . . . 257
Colonization of crop residues by white-rot fungi: cell wall monosaccharides, phenolic acids, ruminal fermentation characteristics and digestibility of cell wall fiber components in vitro
K. Karunanandaa and G.A. Varga (University Park, PA, USA) . . . 273
Effect of *Saccharomyces cerevisiae* or *Aspergillus oryzae* cultures and NDF level on parameters of ruminal fermentation
R.L.A. Miranda, M.G.D. Mendoza, J.R. Bárcena-Gama, M.S.S. González, R. Ferrara, C.M.E. Ortega and P.M.A. Cobos (México-Texcoco Estado de México, Mexico) . . . 289
The nutritive value for rats and chicks of unextracted and defatted leaf protein concentrates from red clover and Italian ryegrass
B. Szymczyk (Balice, Poland), S. Gwiazda (Warszawa, Poland) and P. Hanczakowski (Balice, Poland) . . . 297
Biological delignification of plant components by the white rot fungi *Ceriporiopsis subvermispora* and *Cyathus stercoreus.*
D.E. Akin, W.H. Morrison III, L.L. Rigsby, G.R. Gamble, A. Sethuraman and K.-E.L. Eriksson (Athens, GA, USA) . . . 305
Nutritional evaluation of grain amaranth (*Amaranthus hypochondriacus*) in broiler diets
V. Ravindran (Camden, NSW, Australia), R.L. Hood (North Ryde, NSW, Australia), R.J. Gill (Camden, NSW, Australia), C.R. Kneale (North Ryde, NSW, Australia) and W.L. Bryden (Camden, NSW, Australia) . . . 323

Influence of dietary rumen-degradable protein on bacterial growth in the rumen of sheep receiving different energy sources
S. Chikunya (Cambridge, UK), C.J. Newbold (Aberdeen, UK), L. Rode (Lethbridge, Alta., Canada), X.B. Chen and R.J. Wallace (Aberdeen, UK) 333

Short Communication
Purine derivatives excretion in lactating ewes fed straw diets with different levels of fish meal
S.M. Martín-Orúe, C. Dapoza, J. Balcells and C. Castrillo (Zaragoza, Spain) 341
